

On a whim, Bard joins up with a nervous wizard, a sweet tinkering gnome, and grim fighter. He gets thrown into an adventure before the dust even settles. Its not the glorious world-saving some might look for. Its only a puzzle " why are all the mechanical parts disappearing? As they get closer to the answer, the group learns that machine components arent the only things missing; people are gone. When theyre in too deep to turn back, they have to make the desperate decision to go against the odds to save their friend from a terrible enemy. And maybe they wind up saving the world, or, at least, a very small part of it. Its a humorous fantasy that runs into the wide-open arms of classic cliches and enjoys every minute of it. Theres nothing like a little laughter to go with a sword-swinging adventure.
