

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners “physicians and other healthcare professionals” with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Ophthalmology is specifically designed to provide the participant with up-to-date and accurate information on diagnosis and management in the major subspecialty areas of practice, including, but not limited to: Allergy Cataract surgery and intraocular lenses Corneal and external disease Extraocular-muscle dysfunction Glaucoma Neuro-ophthalmology Orbital disease Ocular oncology Pediatric ophthalmology and strabismus Refractive surgery Retinal and macular disease Systemic and autoimmune disorders Educational Objectives The goal of this program is to improve the diagnosis and treatment of corneal disease. After hearing and assimilating this program, the clinician will be better able to: 1. Diagnose fungal keratitis on the basis of microscopy and laboratory tests. 2. Select appropriate antifungal agents for treating fungal keratitis. 3. Distinguish among available keratoprosthesis (Kpro) devices. 4. Compare the advantages and disadvantages of penetrating keratoplasty (PK) to those of Kpro devices. 5. Choose among PK, deep anterior lamellar keratoplasty, and endothelial keratoplasty for optimal treatment of stromal and endothelial disease.

Cancer Immunotherapy: Chapter 30. Tumor Exosomes and Their Impact on Immunity and Cancer Progression, Snowbound, Study Guide Telecourse for Garrisons Oceanography: An Invitation to Marine Science (with InfoTrac), 5th, College algebra and plane trigonometry, The Deep Freeze (Rabbids Invasion),
